Dear Rod and Bob,

Thank you for taking the time to work with us to determine your Internet Marketing needs. iGuide Media will be available to start work on this project as soon as possible. We look forward to working with you on this project.

You will find our proposal will outline how we will incorporate an E-Commerce web site for your business and address the unique selling position of your organization.

iGuide Media is the right choice for Pinnacle Resources Group for the following reasons:

- Our staff has extensive experience with similar web site development.
- Our staff is already very familiar with your business and understands your business goals.
- We have experience in tying web site projects together with additional marketing tactics for a complete solution.

Sincerely,

Brian Noon

EXECUTIVE SUMMARY

The Objective...

Pinnacle Resources Group needs a major Internet presence to be the hub of their importing business that promotes and sell their products. The site will also create a connection among shareholders. Pinnacle Resources Group also needs an easy way to display high-resolution images for use in selling their products.

- An Internet Presence: Pinnacle Resources Group needs a web site.
- Web Address: Pinnacle Resources Group needs a domain name.
- Search Engine Optimization: Promote Pinnacle Resources Group's web site to all major search engines.
- Web Site Analytics: Measure Pinnacle Resources Group's web site performance and web metrics.

The Opportunity...

Pinnacle Resources Group has the opportunity to dominate the importing and distribution of Pinnacle Resources Group in the United States.

- Exposure: The goal of the web site will be to dominate the importing and distribution of Pinnacle Resources Group countertops on the Internet with a large amount of content and imagery.
- Customer Service: The site will provide Pinnacle Resources Group's clients access to view inventory and provide them with the ability to better manage their inventory and order fulfillment needs.
- Extensibility: The web site will connect and fully integrate with SAP Business One software.

The Solution...

As an integral technology partner to Pinnacle Resources Group we understand the business goals for this project. We are also experts in the creation of all media and materials required for the project including but not limited to web site design, e-commerce, database design, photography and programming. We recommend using our production team to handle the creation and maintenance of this project.

- Site Creation: We recommend a full service web site solution including e-commerce with inventory automation, high resolution product photos, product information, company information, newsletter, current news and more.
- Custom Image Viewer: We recommend a custom product image viewer to display high resolution photos using Zoomify™ technology.
- Ongoing Site Maintenance: We recommend the Pinnacle Resources Group site be updated at least once a month with new information using a content management system.

RECOMMENDATIONS

Based on our interview we are recommending the following course of action for us to meet the needs of Pinnacle Resources Group.

Pinnacle Resources Group is in need of an Internet presence that will make it the primary resource for information and ordering of their products.

Pinnacle Resources Group also needs an e-commerce site for clients that will include details and high quality photographs for use by clients when selecting products.

iGuide Media's staff has the skills and experience required by Pinnacle Resources Group including programmers, web site designers and developers, and multimedia designers.

We recommend that a large-scale web site be developed for Pinnacle Resources Group, which focus on two primary areas:

First to drive clients to the e-commerce parts of the Pinnacle Resources Group web site and build a resource for clients that will achieve the goal of becoming the number one importer and distributor of Pinnacle Resources Group in the United States.

Secondly a large information section of the site will be built featuring interactive high resolution photography, client inventory management tool, and general information about Pinnacle Resources Group. The site provides clients with easy access to Pinnacle Resources Group's staff.

The e-commerce portion of the site will be built so that orders will be integrated with SAP Business One software for inventory control and processing.

Please contact us at your earliest convenience to discuss our recommendations. In order to complete the project within the outlined schedule and budget we will need to finalize any issues you may have within one week.

iGuide Media looks forward to working with you on this project and we guarantee your satisfaction in all phases of this project.

FEATURES

The products and services provided by iGuide Media to be used in this project include many useful and innovative features. Following is a brief synopsis of the major features which you will benefit from:

- **Integration with SAP Business One**

- Account access feature to create and manage clients
 - Real time inventory allocation
 - Clients can view order history

- **Online Billing** – Reduce the time it takes for you to collect on your accounts receivables.

- **High Resolution Product Photography** – Scalable product photos that allow visitors to truly interact with the web site. Please see www.zoomify.com for more details.

- **Custom Design** - We will create a custom graphic design which will match your corporate look and feel and support your web site's high level business goals.

- **Product Search** - Our presentations are designed for ease of use by beginners to experienced computer users.

- **Product Catalog** – Extensive online product catalog accessed from the SAP Business One software system.

- **Client Center** – Interact with your clients in a way that increases your profitability

- Communicate with iGuide Media staff
 - Submit product requests and inquires
 - Submit support request

- **Content Management System** – Make sure your site is up to date by managing your entire site's content from one central location.

BENEFITS

The Website project will benefit Pinnacle Resources Group as follows:

- Increase visibility world-wide
- Stand out from the competition as the industry leader
- Increase brand awareness
- Conduct business easily anywhere in the world
- Promote Pinnacle Resources Group as the most innovative company in the industry
- Improve customer service
- Track your marketing effectiveness

PROJECT DELIVERABLES

The following is a complete list of all project deliverables as stated in the contract and proposal.

- **E-Commerce Web Site** – Pinnacle Resources Group E-Commerce enabled web site integrated with SAP Business One for inventory control.
- **Zoomable High Resolution Product Images** - Custom viewer for displaying and interacting with high resolution product photography.
- **Zoomify Enterprise Software** – Zoomify integration for automation of image manipulation and conversion.
- **Search Engine Optimization** – Web site optimized for inclusion in all major search engines.
- **Search Engine Marketing** – Web site submitted to all major search engines.
- **Tracking Reports** – You will have access to on-line reports showing CDROM tracking results.
- **On-Site training** – We will provide up to a one day of training when delivered.
- **Support** – Ongoing technical support will be provided by phone and e-mail for a thirty day period.

The rest of this sample is included in the retail Proposal Packs and Proposal Kit Professional bundle. Purchase any Proposal Pack in the design theme of your choice and you will have everything you need.

How do I customize or create my own version of this sample?

Using the included Proposal Pack Wizard is the best way to make customized versions of the samples. Using the Wizard and any Proposal Pack you can recreate any of the samples in the visual design theme you purchased as well as branding it with your own logo and design.

- 1) After purchasing, downloading, and installing your Proposal Pack and Wizard software add a new project in the Wizard.
- 2) Click the Pick Documents button then click the View Samples tab.
- 3) Select the title of this (or any other) sample and click the Import Content from Selected Sample button.
- 4) Customize the chapter list as needed to suit your situation. You can add additional chapters from the library of 2000+ topics, reorder chapters, remove chapters.
- 5) When you save your project, the Wizard will build you a custom version of this sample in the visual design theme Proposal Pack you purchased applying all your customizations (logos, font types, color schemes, contact information, etc.).
- 6) Open and edit the Word document to complete your work.

This sample is included in the [Proposal Kit Professional](#) and [Proposal Pack](#) products.

This sample has been truncated to only show the first few pages. The complete version of this sample including an editable Word version is included with all Proposal Kit Professional and Proposal Pack products found at:

ProposalKit.com/htm/proposal-software-products.htm
