Dear Mr. Allard,

Thank you for sharing your company needs with me this past week. Based on our conversation I have developed a proposal that covers all the areas of need we discussed.

Hartford Communications has long been an industry leader in the PBX industry and we look forward to having you as our newest satisfied client. As we discussed, we have the HC100 system that not only fits all of your current needs, but also has the expansion capabilities to grow along with your company.

Due to our expertise in installation and training for the PBX systems, we will be able to not only meet your deadline, but should have the entire process completed approximately 2 weeks prior.

I have included a cost summary so that you can see how easily the HC100 systems will fit into your budget. The installation schedules are based upon an acceptance date of August 15.

I look forward to expanding our working relationship in the future and welcoming you as the newest member of the HC100 family. Please feel free to contact me if you need additional information.

Sincerely,
