When purchased, the complete sample is 18 pages long and was written using these Proposal Pack templates:

Cover Sheet, Title Page, Table of Contents, Executive Summary, Project Background, Project Methods, Time Line, Evaluation, Funding Request, Budget, Project Summary, Programs and Activities, Sources of Funds, Uses of Funds

This sample proposal was created using [Proposal Pack Contemporary #5](#). For only \$67 you **get the entire collection of sample proposals (including this one) plus hundreds of editable templates** for creating an unlimited variety of custom proposals.

▶ [Purchase Proposal Pack Contemporary #5](#) for only \$67.

The sample below **DOES NOT** include all of the content. The complete version is included in every Proposal Pack product and must be purchased to see the rest of the material.

Read this article to help you create a winning proposal using your Proposal Pack and this sample: [HOW TO WRITE A GRANT FUNDING PROPOSAL](#)

Your proposal and quote could be just a couple pages long or over a hundred pages long depending on your needs, **all created with one affordable Proposal Pack**.

*** PDF samples are not editable. You MUST buy a \$67 Proposal Pack for the editable templates.

Name: Petersburg Elementary School

Address: Sparwood Elementary School
1436 E Highland Road
Cloverdale, WV 26884

(PH) (486)278-3876

(FX) (486)278-3879

Project name: Mission Possible: Science Simulations for Success

Reason for grant: Mission Possible is a four-week program that will meet four hours each day, four days a week. Thirty students, selected to participate based on academic need, will complete classroom preparatory activities and participate in problem-based learning simulations in coordination with the Challenger Learning Center at Wheeling Jesuit University.

Grant request: \$9,300.00

Tax status: Sparwood Elementary School is a public school and is tax-exempt.

Total project budget: \$10,000.00

Dates covered by project Four weeks

Project

Mission Possible

Prepared for: Brian Knight
Vice President

Prepared by: Julie Colaw
Project Director

Description

Sparwood Elementary School requires funding of \$9,300.00 for teacher training, supplies, and services for our Mission Possible project, which will provide computer based simulations (or missions) to up to 30 students for the coming school year.

Mission Possible is a four-week program that will meet four hours each day, four days a week. Thirty students, selected to participate based on academic need, will complete classroom preparatory activities and participate in problem-based learning simulations in coordination with the Challenger Learning Center at Wheeling Jesuit University.

Proposal Number: 05-256

Executive Summary

The Objective...

- ◆ **Need #1:** It is critical that our students become “thinkers” and are able to synthesize and apply the knowledge that they gain to real-world situations.
- ◆ **Need #2:** There is an educational gap for at-risk students during the summer months. Summer programs for students at Sparwood Elementary School will provide educational experiences to at-risk students and help close the achievement gap.

The Opportunity...

- ◆ **Goal #1:** Prior to the four-week summer program, teachers at Sparwood Elementary School will be provided with professional development on using high-yield research-based instructional strategies through a RESA VIII training session.
- ◆ **Goal #2:** Students will experience high levels of academic growth and engagement during the preparation and implementation of two innovative simulation-based learning experiences.

The Solution...

- ◆ **Recommendation #1:** Mission Possible will provide professional development opportunities for all teachers at Sparwood Elementary School, centered on science content, the pedagogy of simulations-based learning, and the use of technology in teaching. At least 80% of teachers at Sparwood Elementary School will participate in the professional development session to be provided.
- ◆ **Recommendation #2:** The hiring of three teachers for Mission Possible will allow cooperative student teams to work with adequate levels of coaching and support.
- ◆ **Recommendation #3:** Science supplies (consumable and re-useable), resource books, and student incentives are necessary for completion of daily student activities to assure that Mission Possible is a success.
