

# PROPOSAL KIT SAMPLE

## SAMPLE ESTIMATE PACK DOCUMENT

Scroll down to read the first part of this sample estimate document. When purchased, the complete document is included in an editable format.

Estimate Pack is a set of pre-designed spreadsheets for estimating a variety of projects. The collection as a whole will meet many of your needs.

The spreadsheets are designed to facilitate fast and easy calculations for project estimates. These estimates can then be fine-tuned over time to become more and more accurate.

Fields in white are data entry fields and are dynamically linked to the Word template.

Fields in blue are dynamically linked to the Word template. These fields may be data entry fields or may contain calculations.

Fields in green contain calculations, they may or may not be dynamically linked to the Word document.

If you use the dynamic linking to your Word template feature the tags in the Word template will be replaced with dynamic links to the cells in blue.

For example, in the Word template PackingList.doc the <<R4C2>> corresponds to cell row 4 and column B. B is the 2nd column over.

If you customize the spreadsheet and Word template all you have to ensure is the <<R#C#>> tags match up with the correct cells and the Wizard will do the work of turning them into dynamic links. When you save your spreadsheet the Word template will update when it is opened.

This estimate document is only included in the [Proposal Kit Professional](#) product.

This sample has been truncated to only show the first part. The complete editable version of this document is included in the Proposal Kit Professional product found at:
