EXECUTIVE SUMMARY

THE OBJECTIVES...

Graphics For You, Inc. has been developed to offer an affordable image branding product for new start-up businesses and existing small to mid-sized companies. By purchasing from Graphics For You, Inc., companies can acquire a professionally designed logo that is unique to their business, while keeping their overall costs down. We offer unique, stylish logos for our clients. Other graphics companies may charge 10-20 times more for logos of this quality. Using our less expensive services will allow our clients to direct more money into other aspects of their businesses.

Our designers have over six years of experience in the web and graphics world, which gives our company a competitive edge. Our technical expertise allows us to also offer e-solutions such as web templates, web design, e-commerce, printing services, and design services for custom logos and other graphical elements.

In addition, we are offering a resource collection of free articles on topics from advertising and promotion to software and start-up companies. We are targeting users in all areas and trying our best to deliver support for all of their needs. Our articles are intended to help them get their businesses up and running online, as well as to propose solutions to important questions such as how to drive customers to their web sites.

HIGHLIGHTS...

Innovative, Professionally Designed, Affordable Products - We offer many services not seen on other logo template sites, such as text changes, color changes, and up to five other possible revisions per logo. All source files and fonts are included with each logo sale. We sell only the highest quality logos. Each design must meet our standard of excellence before we will offer it on our site.

Experienced Developers and Management - Our management team and developers have over six years of experience in the world of web design and graphics. Their familiarity with industry trends has taught them how to create sophisticated designs that will stand the test of time.

Understanding of the Importance of a Logo - A logo is vital to a company: it represents that business and is a recognizable image to its customers. We know that no matter what else may change, companies want to stick with a logo. That's why we strive to create unique, timeless designs. When a new business purchases a logo from us, that company can rest assured that the logo design will work well for the entire life of the business.
