Dear Apartment Resident:

Good news! Your property management team has contracted with Woodview Pest Control Services, the local experts, to inspect for and control pest problems within your apartment complex.

On October 12, 20xx, between the hours of 10 a.m. and 2 p.m., our employees will enter your apartment to inspect for pests. Your property manager will let us in. Depending on what is found, our inspectors may apply sprays and traps to eliminate and prevent those pests. Our employees will leave behind a printed notice of what was found and what measures have been used to eliminate pests.

This information packet will help you prepare for our inspection and possible pest control treatment. We hope you will find them informative. If after reading the pages in this packet you still have questions or concerns, please contact your property manager or contact us using the phone number or email address listed below.

Sincerely,

Luisa Esterhaus

DESCRIPTION

This information packet will help you prepare for our inspection and possible pest control treatment. We hope you will find them informative.

If after reading the pages in this packet you still have questions or concerns, please contact your property manager or contact us using the phone number or email address listed below.

WHAT YOU CAN EXPECT

On October 12 between the hours of 10 a.m. and 2 p.m., our employees will enter your apartment to inspect and treat for pests. We know that this process can be inconvenient, but it's important to inspect all units on the same day, as pests can move from apartment to apartment.

Here's what to expect and what you need to do:

❖ **We will knock or ring the doorbell before entering your apartment.**

If you are home, you can let us in. If you are not home, your apartment manager will let us in.

❖ **If pests are found, we will treat for them or leave traps behind.**

Please prepare as described in the Precautions page of this packet.

❖ **We will leave behind information about which pests were found and which treatments were applied.**

Please refer to this information for details about trap locations and pesticides used. You may notice a faint chemical smell, but there is no need for worry.

❖ **You may continue to see pests for a few days.**

It may take up to 10 days for some treatments or traps to be effective. If you continue to see pests after two weeks, please notify your apartment manager.

❖ **You may throw away traps after two weeks.**

If you notice unpleasant smells before that time, feel free to throw away the traps then.

❖ **Your valuables are safe with us.**

Our employees have all passed background checks, and our company is bonded for your security.

❖ **We value the health of your family and your pets.**

Although we recommend that all family members and pets leave before treatments are applied, the chemicals we use are safe after application.

If you still have questions or concerns, please contact your property manager or contact us at the phone number or email address listed below.
